

Living Smarter Jewish aims to elevate the conversation surrounding the financial challenges facing the Orthodox Jewish community and provide meaningful solutions to address this multifaceted issue. While many of the financial challenges facing our community are infrastructural in nature and require big picture thinking, L\$J aims to provide every family and individual regardless of age, with a significant resource toolkit to help create a healthy approach to finances.

This toolkit includes a **free curriculum** for girls and boys rolling out in high schools across the world, **free financial coaching** for families and newlyweds, **access to financial planners** that assist with money management and asset allocation for extremely low cost, and a realm of **meaningful and educational content including blogs, videos, and podcasts.**

L\$J is a member organization of Tribeworks, an aggregation of financially focused non-profit organizations designed to uplift and empowers the global Jewish community. Every member organization of Tribeworks has priority access to services from all the other respective member organizations.
