Overview

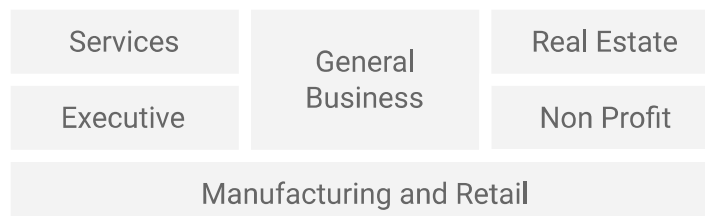

Summary

The Jewish Woman Entrepreneur (The JWE) is a national nonprofit organization that helps Jewish women leverage their creativity and capability to launch and grow successful businesses. Providing local collaborative support networks, business education and mentorship, the JWE bolsters business longevity, self-fulfillment, financial independence for women and their families, and job creation; promoting economic development in the Jewish and greater community. Our Vision is a world in which every aspiring Jewish woman entrepreneur is empowered to dream, articulate, and achieve her professional and personal goals.

What does The JWE offer?

- Annual Conference
 - The JWE annual conference unites women from around the world under their shared goals - growing their businesses, making money, and living a committed and meaningful life.
 - The conference holds workshops in the following industries:

- Webinars

- The JWE has ongoing webinars from industry leaders as well as a library of past webinars. These are available for free.
- Mentorship
 - The JWE Mentorship program offers members a comprehensive mentorship experience, matching aspiring entrepreneurs with proven leaders who are “powerhouses” in business to spark their chances for success.
 - The mentorship offered is for those with prior business experience looking for high level advice from leading professionals. Two types of mentoring support include:
 - Mid-Level businesses that need technical guidance from a leading professional entrepreneur.
 - High level businesses that we can match with an advisory board to help them on the next strategic level for their growth.
- The App
 - The JWE offers an app, which enables Jewish Women to network with each other and access the resources offered to the community. There is a nominal yearly subscription cost for this App. These resources include:
 - Virtual Events: Weekly member-only classes and open Q&A sessions with industry leaders and our board members.
 - Discussion Board: The app expands the community to allow women to find and connect with each other in both group and private discussions.
 - Learning Resources: The JWE has a wide array of events and recorded learning sessions available through the app. The JWE also offers free learning sessions through their YouTube channel.
 - JWE is very active in social media to promote many of these activities.
